

Second Spring
Community Recovery Residence

Items that are restricted at Second Spring

Second Spring attempts to balance the need for residents to feel at home and also to provide an environment that is safe. We encourage residents to bring personal possessions that make them feel comfortable and to decorate your room as you choose. We also ask to you refrain from bringing any of the following items into the home.

- Weapons of any kind
- Tacks, nails
- Cleaning fluids
- Medication of any kind
- Scissors
- Tools
- Pocket knives

If a situation arises in which we are worried about your safety or the safety of those around you, we may further limit your access to personal items that might be dangerous to you or others. If we do this, we will involve you in the decision and you will free to discuss it with the treatment team. Also, as with any restriction, we would work with you to gain the ability to maintain your safety and the safety of others without such restrictions.
